PROBLEM STATEMENT

In todays digital era, traditional resumes alone are not enough to showcase skills and projects effectively. Many students and professionals lack a structured online presence to highlight their work. A digital Portfolio provides an interactive and accessible platform to present achievement, skills, and experiences.

PROJECT OVERVIEW

Many developeras and students don't have a proper platform to showcase their skills ,project, and contact details in one place. A personal Portfolio website solves this by providing a simple ,responsive, and professional way to present their work online.

WHO ARE THE END USERS?

- Employers /Recruiters- To check skills and projects.
- Clients- To see work samples before hiring.
- Teachers/College faculty - For Project submission and evaluation.
- Friends/ publication - To know about the developers work.

TOOLS AND TECHNIQUES

- HTML -Structure of the website
- CSS - Styling and Layout design
- JavaScript - Page navigation and interactive
- Responsive Design - For mobile and desktop view
- CODE Editor (Vs Code/subLime,ect.) - For development
